The Home Refresh

Make an entrance

Give your guests a warm welcome by spicing up your front door. Plant bright flowers in pots, add a new welcome mat, put a fresh coat of paint on your door if needed, replace worn looking house numbers and swap out exterior lighting if it's looking shabby!

01

02

Re-organize a space

This is about re-organizing a space in your home that needs some freshening up in the decor department. It could be as simple as re-styling the items on a bookshelf or countertop. Or, maybe it's adding new cabinet hardware and a pretty rug to the kitchen.

Light refresh

Nothing boosts your mood and energy level like good lighting! How would you rate your current lighting situation? Time to replace old bulbs, swap outdated fixtures for something modern, remove heavy or dark drapes and add a lamp to a darker corner.

04 Linen refresh

There's nothing better than the feeling of clean sheets! But what about the rest of our linens? Time to wash them all! The blankets, sheets, and towels.

PRO TIP: If you're thinking of selling & need new linens, opt for white! It creates a clean, crisp & *refreshed* feel.

05 Window refresh

Window refresh

Break out the magical Norwex rags or call a local window cleaning company to get the window washing scheduled. Replace or repair torn screens and open all the windows to let the fresh air in. Turn on fans to circulate all the fresh air.

06 Closet / Cabinet Refresh

You know that cabinet or closet that you avoid because it's going to be a project to clean it out. You shove things in when you're in a rush but think "not today!" Well TODAY is the day! Tackle your version of "junk drawer" closet.

06

The Home Refresh

Furniture refresh

It's time to master the art of re-arranging our own stuff! Sometimes a simple shift in furniture arrangement or movement of a lamp or bookshelf can make all the difference in a room. Work with what you already have and give it a fresh spin! Which room are you picking?

07

BONUS

Office space refresh

Working from home is the new normal! So is school from home, shopping from home, etc. Short on extra space? Create an office nook with a ladder desk that takes up minimal room. Add some books, a plant and a cute chair.
